**WOMEN SEAFARERS' OBSTINANCY**

**YES, WE CAN SAIL!**

**P**lease, come out of the gunwale Of masculine values, norms and behavior, That you dominated and sustained so far, We have equal right and stature, Without fear of any restraining barrier Accept us onboard ship's working culture; We can endeavor without fail!

**YES, WE CAN SAIL!**

**E**quip us with the shoes, helmets and overalls, Handover the spanners and safety are strong and fierce with powerful grips Of sea-yearning spirit that enthralles; We can stay on camber inside the guard rail.

**YES, WE CAN SAIL!**

**W**e can let go anchor, weigh and get underway, Start engines and maneuver the ship Operate mooring winches, make her fast, Monitor the stability; Load cargo, bilge and ballast We can maintain the deck, paint and chip, And, can face whatever the roughest weather it may. We can set the course through gale.

**YES, WE CAN SAIL!**

**I** am substantial, eloquent and precise, Determined, independent with a sense of ability know what would help us persevere; The resilience, endurance, commitment and nobility, and, the versatility that would certainly steer through unchartered-waters, the world shall recognize, we can toil and trail!

---

### ***YES, WE CAN SAIL!***

**B**eyond the edge of the tide's crimson hue,  
The sun bathes itself at the horizon's view;  
And, the smashing surfs immerse the moon, where  
the sea breathes and causes swell behind the ship's  
trails, the seagulls yell, Far away from the sandy  
shore and lagoon; Our hearts' pastoral eclogues tell-  
We can feel such seascape's quale.

---

### ***BUT, WE CAN SAIL!***

**W**here Loneliness ebbs and flows like tide,  
And, nature's bliss breezes through earlobes;  
Sea waves kiss the ship in exuberant mood, Yet,  
she pounds to navigate across the globe; The language  
of rainstorms, ripples and the driftwood Knock the  
watertight doors of hearts we stride We can't kneel  
resolute and frail.

---

### ***RATHER, WE CAN SAIL!***

**N**either so born to greatness, nor so bold with  
our youth, Neither grown so grave, nor so graced  
by God, Yet, we feel no fear as the ship sails  
through sea Wandering what fate has prodded and will  
prod, No passion for social life, no rewards, yet  
voyage spree, For us the revolving scanner of radar  
matters; And, so does engines' propulsion and  
clatters. All admonish what seafaring does entail.

---

### ***YES, WE DARE TO SAIL!***

## **Shri P Venkat Rao, AM (IT)**

### ***E-PROCUREMENT IN DCI***

**D**redging Corporation of India Ltd has implemented Eprocurement through CPP portal since 2012 using <https://eprocure.gov.in> for all its tenders with the support of NIC team New Delhi. National Informatics Centre (NIC), Ministry of Electronics & Information Technology, in close association with the Procurement Policy Division, Ministry of Finance, has developed, hosted and implemented the Central Public Procurement Portal customized to cater to the electronic procurement/tendering requirements of the Central Government Departments and other PSUs.

The primary objective of the portal is to provide a single point access to the information on procurements made across various Ministries and the line Departments. The CPP Portal is accessible at the URL <https://eprocure.gov.in> and it has e-publishing and e-procurement modules.

#### **THE KEY DIFFERENCES BETWEEN E-PUBLISHING MODULE AND E-PROCUREMENT MODULE OF NIC ACCESSIBLE THROUGH THE CPP PORTAL.**

1. Entails publishing of all tender enquiries, thereto and awards of contract thereon on the CPP Portal. Under e-Publishing, the User Organizations will continue to invite bids in paper based

format. Whereas in Eprocure ( Online bidding) the complete tendering process starting from online publishing of tender enquiries, online bid submission by the bidders, online bid opening, uploading of bid evaluation results and publication of award of Contract. Under e-Procurement, the complete tendering, including the submission of bids by the bidders, will be online.

2. Under the e-Publishing module, the User Organizations are required to define two roles for their officials authorized to use this module, viz. a. Tender Creator/Procurement Officer Admin - responsible for filling up and uploading the details of a tender enquiry / corrigenda / award of Contract on the CPP Portal. b. Tender Publisher - responsible for publishing the tender enquiry / corrigenda / award of contract created by the Tender Creator on the CPP Portal. Under the e-Procurement module, the User e-Procurement. Bid openers should be identified for each tender at the time of publishing of the tender Enquiry. b. Bid Evaluator - authorized to upload the results of the various stages of bid Evaluation on the CPP Portal. c. Minimum of 4 Bid openers must be configured against each tender to avoid any issues in tender opening d. It is suggested to have Minimum 5 Digital Signature Certificates to start with

3. All authorized department users, from the User Organizations, can login using a login ID and password assigned to them, to operate the e-Publishing module of the CPP Portal. They do not need any Additional mode of authentication. Under Eprocure, all authorized department users, from the User Organizations, will be required to have valid Digital Signature

The system is made available as a platform and can easily be adopted for all kinds of procurement such as Goods, Services & Works. It aims at transparency and non-discrimination amongst bidders, by allowing free access to tender documents, clarifications, secure on line bid submission and access to bid opening event to all, from any place on 24X7 basis, using the system through Internet, in a faster, and secure environment adopting industry standard open technologies. Variety of procurement requirements of varied procuring entities has been built in a robust configurable, workflow based manner. This can be configured for use by an organization at its apex level, and at

Certificates (DSCs), in addition to their user ID and password, to be able to operate the E-Procurement Module.

4. e-Publishing does not require the bidders to enroll on the CPP Portal, since the bids will continue to be submitted in the paper based format. Whereas for e-Procurement requires the bidders to enroll on the CPP Portal, using a valid Digital Signature Certificate (DSC) and Valid email address. The bidders will be required to submit their bids online on the e-Procurement module.

## **MAJOR GOALS AND GUIDING OBJECTIVES OF CPPP**

The prime objective is to educate, encourage/ incentivize and thus facilitate Government Departments at all levels, through appropriate steps and interventions from Central Government level, to readily adopt and use the Central Public Procurement Portal to bring in transparency in tendering process and gradually move towards adoption of electronic Procurement solution(s) for their procurement needs on a continuing basis. Act as catalyst in streamlining the procurement processes of public/ Government sector with the help of ICT tools and technologies, enabling them to harness the multidimensional benefits of E-Procurement/ E-Tendering pertaining to: efficient and cost-effective procurement, shortened procurement cycles, full transparency in the whole process, avoidance of human discretion/ interference to the extent possible, easy availability of complete audit trail and evidential data etc.
