

Dredging Corporation of India Ltd

Visakhapatnam

FROM C.M.D.'s DESK

DCIL has emerged as a leading enterprise in India in the field of dredging. Facing the new challenges and opportunities, DCIL is determined to enhance its business of dredging needs of ports, marine structures, Project Management Consultancy and shallow water dredging services. We shall promote the technology and management innovation as well as boost the overall development of the DCIL in a coordinated and sustainable manner. We shall also strive to become nodal agency for port related marine constructions and for development of national waterways. We shall make all out efforts to achieve Navaratna status for DCIL. Team DCIL is also geared up to take all challenges to meet goals of the Corporation.

We shall constantly improve the core competitiveness of the company by adhering to the policy of "scientific innovation, total management and cooperation".

We shall dedicate ourselves to the promotion and fulfillment of social responsibility in the pursuit of sustainable development.
